European Journal of Operational Research 63 (1992) 488–492
North-Holland

Keyword Index

Volumes 56–63 (1992)

Acquisition, (62) 175
Activity analysis, (59) 337
Adaptive processes, (62) 282
Age-replacement policies, (56) 413
Aggregate production planning, (61) 255
Aggregate value/utility interval, (56) 219
Agriculture and food, (57) 339, (59) 308
Algorithm, (57) 123, (57) 355, (62) 203
Algorithmic probability, (62) 221
Algorithms, (57) 136, (57) 190, (57) 348, (60) 260
Analytic hierarchy process, (60) 117
And–or-graph search, (58) 263
Approximate algorithms, (58) 173, (58) 404
Approximation scheme, (57) 323
Arrow's theorem, (58) 427
Artificial intelligence, (56) 319, (56) 357, (61) 6, (61) 86, (63) 322
Assembly line balancing problems, (58) 215
Assignment, (60) 260
Auction markets, (58) 335
Auditing, (62) 372
Automated guided vehicle systems, (63) 173
Automated storage, (58) 37
Automated warehousing, (58) 48

Bankrupty prediction, (56) 67
Bargaining solution, (59) 275
Batching, (58) 99
Bayesian models, (56) 67
Behavioral decision making, (59) 167
Behavioural simulation modelling, (59) 9, (59) 102
Benders decomposition, (62) 149
BFGS-method, (60) 287
Bicriteria programming, (62) 354
Bidding, (58) 335
Bilevel programming, (62) 354
Bilinear programming, (60) 306
Bin packing problems, (58) 215
Biology, (59) 308
Blackboard model, (61) 86
Blocking, (63) 463
Boardroom systems, (59) 203
Bootstrap estimation procedure, and simulation, (56) 332
Boundary, (62) 74
Bound constraints, (61) 357
Branch-and-bound, (57) 316, (58) 215, (61) 215
Branch-and-bound and heuristic algorithms, (57) 111
Branch-and-bound method, (57) 132
Branch-and-bound search, (58) 363
Brownian motion, (59) 434
Bulk, (63) 445
Burden sharing, (59) 248
Business, (62) 175

Calibration, (57) 24
Capacity acquisition, (60) 1
Capacity expansion, (59) 288
Capacity planning, (57) 162, (58) 3, (63) 432
Capacity planning flexibility, (60) 211
Case method, (59) 151
Cellular manufacturing, (57) 287, (62) 47
Cellular Manufacturing Systems, (60) 200
Channel maintenance dredging, (58) 318
Choice models, (63) 376
CK modeller, (59) 220
Classification, (60) 247
Cliques, (60) 335
Clustering, (58) 57
Clusters, (59) 220
Coefficient increase, (60) 335
Coefficient of variation, (62) 302
Coefficient reduction, (56) 119
Colour coding, (59) 220
Column generation, (62) 47
Combinatorial analysis, (56) 2, (63) 222, (63) 231
Combinatorial optimization, (58) 149, (58) 272, (60) 327
Combinatorial problem, (56) 184
Competitive facilities, (62) 363
Competitiveness, (56) 54
Competitive tendering, (56) 15
Complexity, (57) 123, (57) 348
Computational, (63) 445
Computational analysis, (56) 192, (58) 223, (60) 273
Computational complexity, (63) 432
Computational efficiency, (58) 236
Computation analysis, (56) 357
Computer graphics, (60) 280, (61) 195
Computer networks, (58) 149
Computer supported cooperative work, (59) 28
Concave quadratic constraints, (63) 114
Conceptual mapping, (59) 220
Conflict meditation, (60) 109
Conjoint analysis, (60) 31
Consensus ranking, (61) 245
Constrained shortest path, (57) 280, (63) 124
Constraint programming, (61) 306
Constraint satisfaction, (62) 186
Consultancy methodologies, (59) 64
Consumer, (62) 261
Consumer marketing, (63) 376
Continous review, (59) 383
Control, (62) 221
Control-limit policies, (56) 413
Control-limit rules, (62) 96
Control theory, (62) 241
Convex hulls, (58) 414
Convex programming, (57) 395, (60) 287
Convex quadratic constraints, (63) 114
Correlation, (57) 39
Cost analysis, (63) 1
Cost benefit analysis, (58) 393
Cost minimization, (61) 255
Covers, (60) 335
Crew scheduling, (57) 316
Cumulative damage shock model, (57) 100
Cutting, (57) 332
Cutting plane, (56) 380, (62) 323
Cutting stock problem, (58) 263

Data and methods base, (61) 98
Data capture, (59) 220
Data envelopment analysis, (56) 80, (58) 356
DEA efficiency, (62) 74
Decision, (56) 172, (56) 380, (60) 68, (60) 99, (61) 195, (62) 175, (62) 354
Decision making, (59) 42
Decision Making Unit, (59) 319
Decision schema, (61) 165
Decision support, (61) 154
Decision Support Systems, (61) 57, (61) 72, (61) 86, (61) 114, (61) 204, (61) 219, (63) 361
Decision theory, (56) 278, (56) 357, (59) 64, (60) 61, (61) 186, (61) 204, (62) 282
Decomposition methods, (57) 287, (62) 55
Defence, (56) 304
Degeneracy, (60) 315

0377-2217/92/$06.00 © 1992, Elsevier Science Publishers B.V. All rights reserved

Degeneracy graphs, (60) 315
Demand, (57) 71
Demand analysis, (60) 31
Design, (60) 156, (62) 221, (63) 240, (63) 254, (63) 287
Deterioration, (57) 71
Determination of weights, (60) 117
Deterrence, (56) 134
Device selection, (61) 326
DFP-method, (60) 287
Dichotomous search, (58) 78
Discounting, (59) 434
Discrete event dynamic systems, (56) 394
Discrete-event simulation modelling, (57) 305
Discrete optimization, (58) 236
Discrimination, (59) 319
Distribution, (56) 2, (56) 407, (58) 374, (59) 393, (62) 149
Distribution centers, (58) 14
Distributions, (56) 98, (57) 39
Domain criteria, (61) 292
Dominant machine, (62) 38
Dominant subset, (58) 404
DSS, (61) 30, (61) 72, (61) 106
Dual-based algorithm, (62) 105
Duality, (57) 360
Dual limit switches, (63) 66
Dual linear programs, (62) 74
Due date assignment, (59) 298
Dynamic chance-constrained programming, (58) 318
Dynamic layout, (63) 271
Dynamic location, (58) 250
Dynamic programming, (56) 2, (56) 107, (57) 332, (58) 68, (58) 78, (59) 294, (62) 210, (62) 282, (63) 207, (63) 347
Dynamic representation, (59) 220
Dynamic routing, (60) 224

Econometric models, (61) 357
Economic equilibrium, (59) 262
Economics, (56) 146, (56) 154, (59) 248
Economy, (56) 210
Education, (59) 151
Efficiency, (58) 356, (59) 319
Efficient solutions, (57) 381, (62) 354
EIS, (61) 72
Electricity, (56) 30
Ellipsoid method, (60) 287
Empirical statistics, (56) 319
End-users, (61) 145
Energy, (56) 154, (56) 172, (62) 149
Energy planning, (61) 135
Entropy, (57) 24
Entropy optimization, (59) 324
Environment, (56) 210
Environmental analysis, (56) 263
EOQ model, (59) 434
Equilibrium distribution, (59) 303
Equipment, (63) 207
Equivalent formulation, (58) 236
Euclidean, (58) 284
Executive Information Systems, (61) 72
Experiment, (58) 123
Expert opinion, (57) 24
Expert Support System, (56) 15
Expert systems, (56) 319, (61) 114, (61) 122, (61) 135, (61) 145, (61) 306

Facilitation, (59) 220
Facilities, (57) 271, (63) 173, (63) 231, (63) 304
Facilities design, (63) 271
Facilities planning, (56) 41, (57) 224, (58) 14, (60) 183, (63) 222, (63) 271
Facility layout, (57) 136, (57) 162, (57) 174, (57) 243, (57) 253, (57) 280, (63) 254, (63) 322
Facility layout problem, (57) 190
Facility location, (58) 202, (60) 1, (62) 163
Factor analys, (60) 166
Failure-free policy, (57) 89
File assignment, (61) 326
Finance, (56) 98
Financial, (57) 13, (58) 344, (59) 248
Financial management, (62) 175
Financial ratios, (58) 344
Fisheries, (56) 134
Fixed job intervals, (63) 432
Flexibility, (60) 144
Flexibility analysis, (60) 200
Flexibility measurement, (60) 166
Flexible manufacturing, (57) 287
Flexible manufacturing systems, (57) 224, (58) 215, (60) 144, (60) 224, (60) 344, (63) 54
Flowshop, (62) 27, (62) 38
Flowshop scheduling, (57) 111, (61) 318
FMS, (56) 107
FMS loading and routing, (60) 144
FMS operation, (61) 273
Forest industry, (56) 192
Forest management, (58) 356
Forestry, (56) 192
Forest taxation, (56) 192
Formulation, (60) 19
Frontier, (59) 319
Full work system, (63) 66
Fuzzy algorithms, (59) 330
Fuzzy control, (59) 330
Fuzzy numbers, (62) 294
Fuzzy sets, (58) 90, (62) 294

Games, (56) 154, (62) 55
Gaming, (59) 137, (59) 167, (59) 183
GARCH, (56) 98
General mail facilities, (63) 192
Generative thinking, (59) 220
Generic software, (61) 41
Genetic algorithms, (63) 322
Geometric programming, (59) 324, (63) 102
G/G/1 queueing system, (59) 303
Global manufacturing strategy, (60) 1
Global optimisation, (62) 163
Goal programming, (62) 175
Government, (56) 172, (57) 339
Gradient methods, (57) 412
Graphs, (63) 222
Graph theory, (62) 186
Group decision support, (59) 9, (59) 85, (59) 203, (61) 245
Group decision support systems, (59) 28, (61) 165
Group facilitation, (59) 28
Grouping, (59) 313
Group process technique, (59) 85
Group technology, (57) 162, (63) 409
GUI, (62) 116

Health care systems, (60) 233
Health services, (57) 339, (58) 393
Heuristic, (56) 370, (57) 145, (58) 272, (58) 284, (59) 393, (62) 85
Heuristic algorithms, (57) 253
Heuristic method, (62) 302
Heuristics, (56) 2, (56) 184, (56) 357, (57) 32, (57) 174, (57) 224, (57) 243, (58) 123, (59) 333, (60) 273, (60) 327, (61) 318, (62) 27, (62) 203, (62) 323, (63) 173, (63) 192, (63) 240, (63) 304
History, (57) 339
Horn formulae, (61) 48
Human factor constraints, (57) 32
Hypergraphs, (61) 48

Idon, (59) 220
Imperfect preventive maintenance, (57) 100
Implementation, (61) 122
Information, (59) 42
Information behaviour, (60) 45
Information systems, (61) 41
Information theory, (59) 324, (60) 99
Innovation, (63) 207
Input–output analysis, (58) 393
Inspection policy, (63) 35
Integer programming, (56) 119, (58) 191, (58) 223, (58) 236, (58) 250, (59) 333, (59) 444, (60) 273, (61) 326, (62) 323, (62) 363, (63) 287
Integrated procurement, (62) 1
Integrated product life cycle, (61) 98
Interactive, (56) 380, (60) 52, (60) 280
Interactive multiobjective mathematical programming, (57) 421
Interactive programming, (60) 87
International, (62) 175
International policy making, (56) 263
Interprocessor communication delay, (57) 348

Intervention, (56) 54
Inventory, (56) 41, (57) 71, (58) 68, (59) 359, (59) 370, (59) 383, (59) 393, (59) 425, (59) 444, (62) 11, (62) 340, (63) 66
Inventory systems, (63) 86
Inventory theory, (56) 332, (57) 54, (57) 77, (62) 311
Investment, (63) 207
Investments, (56) 210
Investment sequencing, (58) 191
Item usage, (57) 89

JIT, (59) 359
Job scheduling, (59) 333, (63) 432
Job sequencing, (62) 294
Job-shop, (61) 230
Job-shop scheduling, (57) 132

Kanban, (61) 230
Kernel density estimation, (63) 86
Knapsack, (62) 85
Knapsack constraints, (60) 335
Knowledge-based Decision Support Systems, (61) 145
Knowledge-based systems, (61) 6, (61) 18
Knowledge elicitation, (56) 15, (59) 9, (59) 28, (59) 85, (59) 102

Lagrangean heuristic, (58) 250
Lagrangean relaxation, (58) 149
Lagrange multipliers, (57) 368, (59) 444
Lagrangian relaxation, (59) 340
Large-scale, (60) 280
Large-scale optimization, (60) 76
Large-scale problems, (61) 357
Law enforcement, (56) 134
Layout, (57) 271
Layout design, (57) 231
Lead-time demand distribution, (56) 332, (63) 86
Lead times, (58) 99
Learning, (59) 137, (59) 183, (61) 6, (62) 282
Learning organizations, (59) 167
Leontief, (60) 296
Level crossing theory, (59) 383
Lexicographic order, (57) 355
Λ-extreme points, (57) 368
Linear decomposition, (56) 394
Linearization, (58) 236
Linear programming, (56) 154, (57) 190, (57) 309, (57) 412, (59) 337, (59) 425, (60) 76, (60) 280, (60) 287, (60) 296, (61) 30, (61) 48, (62) 55, (63) 271
Local government, (56) 146
Local minimizer, (57) 409
Location, (62) 363, (63) 141, (63) 151, (63) 164, (63) 231
Locational model, (58) 363
Location analysis, (63) 222
Location theory, (62) 116
Logic programming, (61) 306
Logistics, (58) 14
Lot-size models, (57) 54
Lot sizing, (59) 393
Lotsizing, (59) 425
Lower bounds, (57) 271

Machine-component grouping, (63) 409
Machine flexibility, (60) 156
Machine interference, (56) 413
Machine layout, (57) 203
Machine scheduling, (63) 192
Magnetic hexagons, (59) 220
Mail processing, (63) 192
Maintenance, (58) 112, (58) 301, (62) 96, (63) 151
Management, (58) 301, (59) 151, (61) 114, (62) 175
Management control, (59) 123
Management decision making, (59) 183
Management decisions, (61) 106
Management learning, (59) 64
Management of decision making, (60) 45
Management of warranty, (62) 127, (62) 261, (63) 1
Management training, (59) 210
Managerial accounting, (61) 98
Man–machine interface, (61) 135
Manufacturer and society perspectives, (62) 261
Manufacturing, (58) 68, (60) 166, (61) 6, (61) 41
Manufacturing flexibility, (60) 131, (60) 183
Manufacturing industries, (58) 301, (59) 359, (61) 215, (62) 27, (63) 66, (63) 240, (63) 304
Manufacturing systems, (57) 243
Mapping, (59) 9, (59) 197
Marketing, (57) 309
Markov decision, (62) 96, (63) 207
Markov Decision Problem, (63) 35
Markovian process, (57) 421
Markovian programming, (57) 421
Markov processes, (62) 241, (62) 340, (63) 66
Mass transit, (58) 272
Material handling, (57) 145
Mathematical, (56) 380, (60) 260
Mathematical models, (63) 1
Mathematical programming, (56) 2, (57) 323, (57) 339, (57) 395, (61) 299, (62) 47, (62) 55
Matrices, (60) 296
Maximal independent set, (62) 186
Measurement, (57) 13, (58) 393
Measure of proximity, (59) 330
Mental models, (59) 9, (59) 28, (59) 85
Merger, (62) 175
Mergers and acquisitions, (59) 275
Metamodels, (61) 6
Method of succesive averages, (60) 224
M/G/1 queue, (58) 112
Microworlds, (59) 151
Migration, (59) 262
Military planning, (61) 86
Minimal cost-to-time ratio, (57) 123
Minimal repair, (57) 100
Minimum spanning tree, (56) 343
Mix ratios, (63) 54
Model base, (61) 106
Modeling, (58) 236, (59) 42, (59) 210, (61) 72
Models, (57) 136, (57) 190
Modular design problem, (60) 306
Module placement, (62) 210
Monte Carlo, (63) 76
Monte Carlo design, (59) 413
Monte Carlo simulation, (62) 372
Most productive scale size, (62) 74
Multiattribute decision theory, (57) 231
Multiattribute preference, (60) 31
Multicapacitated plant location, (58) 202
Multicriteria decision analysis, (56) 249
Multicriteria decision making, (56) 263, (61) 204, (61) 292
Multicriteria Pareto-optimal path, (62) 203
Multi-criterion analysis, (60) 200, (61) 230
Multi-echelon optimality, (57) 54
Multi-item heuristics, (58) 99
Multiobjective decision-making, (57) 421
Multi-objective maximization, (63) 398
Multiobjective programming, (60) 87
Multiobjective selection, (60) 117
Multiple criteria, (56) 30, (56) 278, (56) 380, (57) 360, (59) 248, (60) 52, (61) 215, (61) 219
Multiple criteria decision making (MCDM), (60) 109
Multiple criteria programming, (56) 210, (57) 368, (57) 381, (61) 135, (61) 195, (63) 361
Multiple criteria robust interactive decision analysis (MCRID), (56) 219
Multiple objective linear programming, (57) 355
Multiple objective programming, (61) 245
Multiple objectives, (60) 280
Multipliers, (59) 319
Multivariate statistics, (60) 99
Multi-Weber, (58) 414

Nash–Kalai axioms, (59) 275
Nearest-point map, (60) 287
Near-optimality, (62) 163
Near-optimal solutions, (61) 255
Negotiation support systems (NSS), (60) 109
Net inventory, (59) 383
Network design, (57) 145, (62) 105
Network flows, (61) 48

Networks, (56) 343, (56) 364, (57) 123, (57) 253, (58) 223, (59) 262, (62) 203, (63) 124, (63) 151
Neutral networks, (62) 186
New product-concept positioning, (63) 376
Nominal and perturbed Markov chains, (63) 35
Nonconvex programming, (60) 306
Nonconvex quadratic programming, (57) 409
Non-greedy approaches, (56) 343
Nonlinear nonsmooth programming, (57) 360
Nonlinear optimization, (56) 263, (57) 174
Nonlinear programming, (56) 134, (57) 190, (57) 381, (63) 102
Nonrepairable item, (57) 89
Nucleolar solution, (57) 355
Nurse scheduling, (60) 233

Obnoxious facilities, (58) 363
